

Since I have got on the list with the Indiana Telephone Privacy bill, my life has greatly changed. I used to have at least 15-30 calls per week, now I have none. I have a business and when I arrive home I would like to spend quality time with my small children rather than being on the phone all night telling someone that I am not interested in their product and to take my name off of their calling list. I hope you don't try to amend this great privacy act.
